Dear colleague,

The **6th European CF Young Investigator Meeting** will take place in **Paris (France)** from the **24th to the 27th of April 2012**. This scientific meeting is organized by the European cystic fibrosis patients' organizations together with the European Cystic Fibrosis Society. It aims at fostering interactions between young scientists in order to create a long-term collaborative European network of CF investigators. The meeting will cover all CF research fields, considering **basic research and clinical research**.

Fifty young investigators (under 35 years old) will be selected by an international scientific committee to present their work on CF. They will be asked to give a **10 minutes' talk** and to present their results on a poster for further discussion. Senior scientists will moderate the different work sessions. Large time periods will be dedicated to networking. The scientific committee will reward the best presentation (talk + poster). This meeting provides a unique opportunity for young scientists to train themselves and share experience. Moreover, **leading scientists will give state of the art lectures in microbiology, immunology, cell biology, gene therapy, and clinical issues in CF**.

The organizing committee will offer a **training course on "Presenting in English with confidence"**.

There is **no registration fee**. **Travelling will be covered by the patients' association from your country (for Germany: max. 250 €; in accordance to the business travel guideline of the Mukoviszidose e. V.). Housing and meals will be covered by the organizers.**

Due to your involvement in CF research, we strongly recommend young investigators from your laboratory or hospital to apply for this meeting, which intends to become a major regular event in the CF scientific community.

For application, please return the given abstract form to **Virginie Jaunet** (yjaunet@vaincrelamuco.org) by **December 9th 2011**. Please send a copy to the patient association from your country (for Germany: Mukoviszidose e. V.: IFroembgen@muko.info). Acceptance will be notified at the end of January 2012. Further information about the meeting will be provided to selected young investigators.

We are looking forward to receiving your young investigators' application.

Sincerely yours,

For the organizing committee,

Franck DUFOUR
Scientific Director
Vaincre la Mucoviscidose

ABSTRACT FORM
6th European CF Young Investigator Meeting
Paris, France
24 – 27 April 2012

Abstracts must be received by
December 9th 2011.
 Submit to **Vaincre la Mucoviscidose:**
vjaunet@vaincrelamuco.org
 with copy to: IFroembgen@muko.info
 For Review Committee use only:
 Abstract Number

Please note that only investigators **under 35 years old** can apply and attend the meeting. You will be asked to give a 10 min talk **and** present your results on a poster.

Please type

Name of young investigator:	
Name of supervisor:	
Institution:	
Department:	
Full Address:	
Email:	
Telephone: (incl. country code)
